

UNALOME

OUTDOOR COLLECTION

UNASTORY

*Ako Ardalan
Michel Shoppe*

Growing up in a design conscious family in Denmark, Michel naturally learned the trade from his father who had successfully built his signature furniture company into the largest importer of rattan and bamboo into Scandinavia.

Following a stellar career in finance and investment banking in both London and Australia, Ako was looking for a new challenge and an adventure that spoke to his soul.

On the sunkissed streets of Bali, Michel had been expanding his businesses and was considering bringing a partner into the fold. With a passion for life and an eagerness to build a legacy, Ako stepped into the role of CEO with ease and grace.

The unalome symbol represents the path to enlightenment in the Buddhist culture. It speaks to our challenges in life, and how we can find harmony amongst them.

*The Unalome craft mimics the same process.
In the ten years since meeting, Michel and Ako have found their groove..*

*This is Unalome
Michel Shoppe, COO + Founder
Ako Ardalan, CEO + Founder*

The Unalome Outdoor Collection is shaped by clarity, balance, and a commitment to refined simplicity. Every piece is guided by intentional proportions and a design language that honors calm, open-air living. The collection brings together furniture that feels sculptural yet understated—objects that support daily rituals without demanding attention.

This outdoor line focuses on grounded silhouettes, softened geometry, and materials chosen for both durability and quiet elegance. Surfaces, weaves, stone elements, and performance textiles are expressed with subtlety—allowing texture, form, and natural variation to speak for themselves. Cushions and upholstery remain restrained in palette, creating visual harmony across lounge, dining, and modular configurations.

Spatial clarity is a defining principle. Each piece is designed to enhance flow and openness, encouraging comfortable movement and effortless arrangement in terraces, pool decks, gardens, and coastal settings. The collection interacts with light and shadow in thoughtful ways: rounded edges soften transitions, while linear elements create calm, architectural rhythms.

Rather than imposing itself on the landscape, the Unalome Outdoor Collection works in conversation with it—elevating the environment while remaining quietly grounded. These are forms meant to weather beautifully, to age with grace, and to provide a sense of serenity in spaces shaped by sun, breeze, and nature.

This is outdoor living defined by intention: enduring, timeless, and deeply connected to place.

Solterra Atelier Series
OUTDOOR COLLECTION

MARAVÉ

The Maravé Daybed is designed as a centerpiece for outdoor living, combining generous proportions with a clean, contemporary silhouette. Crafted entirely from natural teak, Maravé brings a warm, organic presence to any outdoor setting while offering exceptional durability in exterior environments.

Built to comfortably accommodate up to four people, its wide platform seat is paired with plush cushions and supportive bolsters, creating a luxurious space for gathering, lounging, or sunbathing. The floating-style base enhances its modern aesthetic, while outdoor-grade materials ensure long-lasting performance in sun, rain, and coastal climates.

Perfect for pool decks, beach clubs, villas, and resort terraces, the Maravé Daybed delivers comfort, durability, and understated elegance in one timeless statement piece.

MERIDIAN

The Meridian Sofa brings a refined balance of structure and softness, designed for sophisticated outdoor living. Its clean, architectural frame can be crafted in solid teak for a warm natural expression or powder-coated aluminum for a sleek, contemporary finish.

The wide arm panels — optionally accented with breathable outdoor rattan — add texture and character, while the slim elevated legs give the piece a light, modern stance. The generously cushioned seat is paired with supportive back pillows and cylindrical bolsters, offering comfort whether you're lounging, reading, or entertaining guests.

Made with outdoor-grade materials from frame to upholstery, the Meridian Sofa is built to perform beautifully in sun, humidity, and coastal environments.

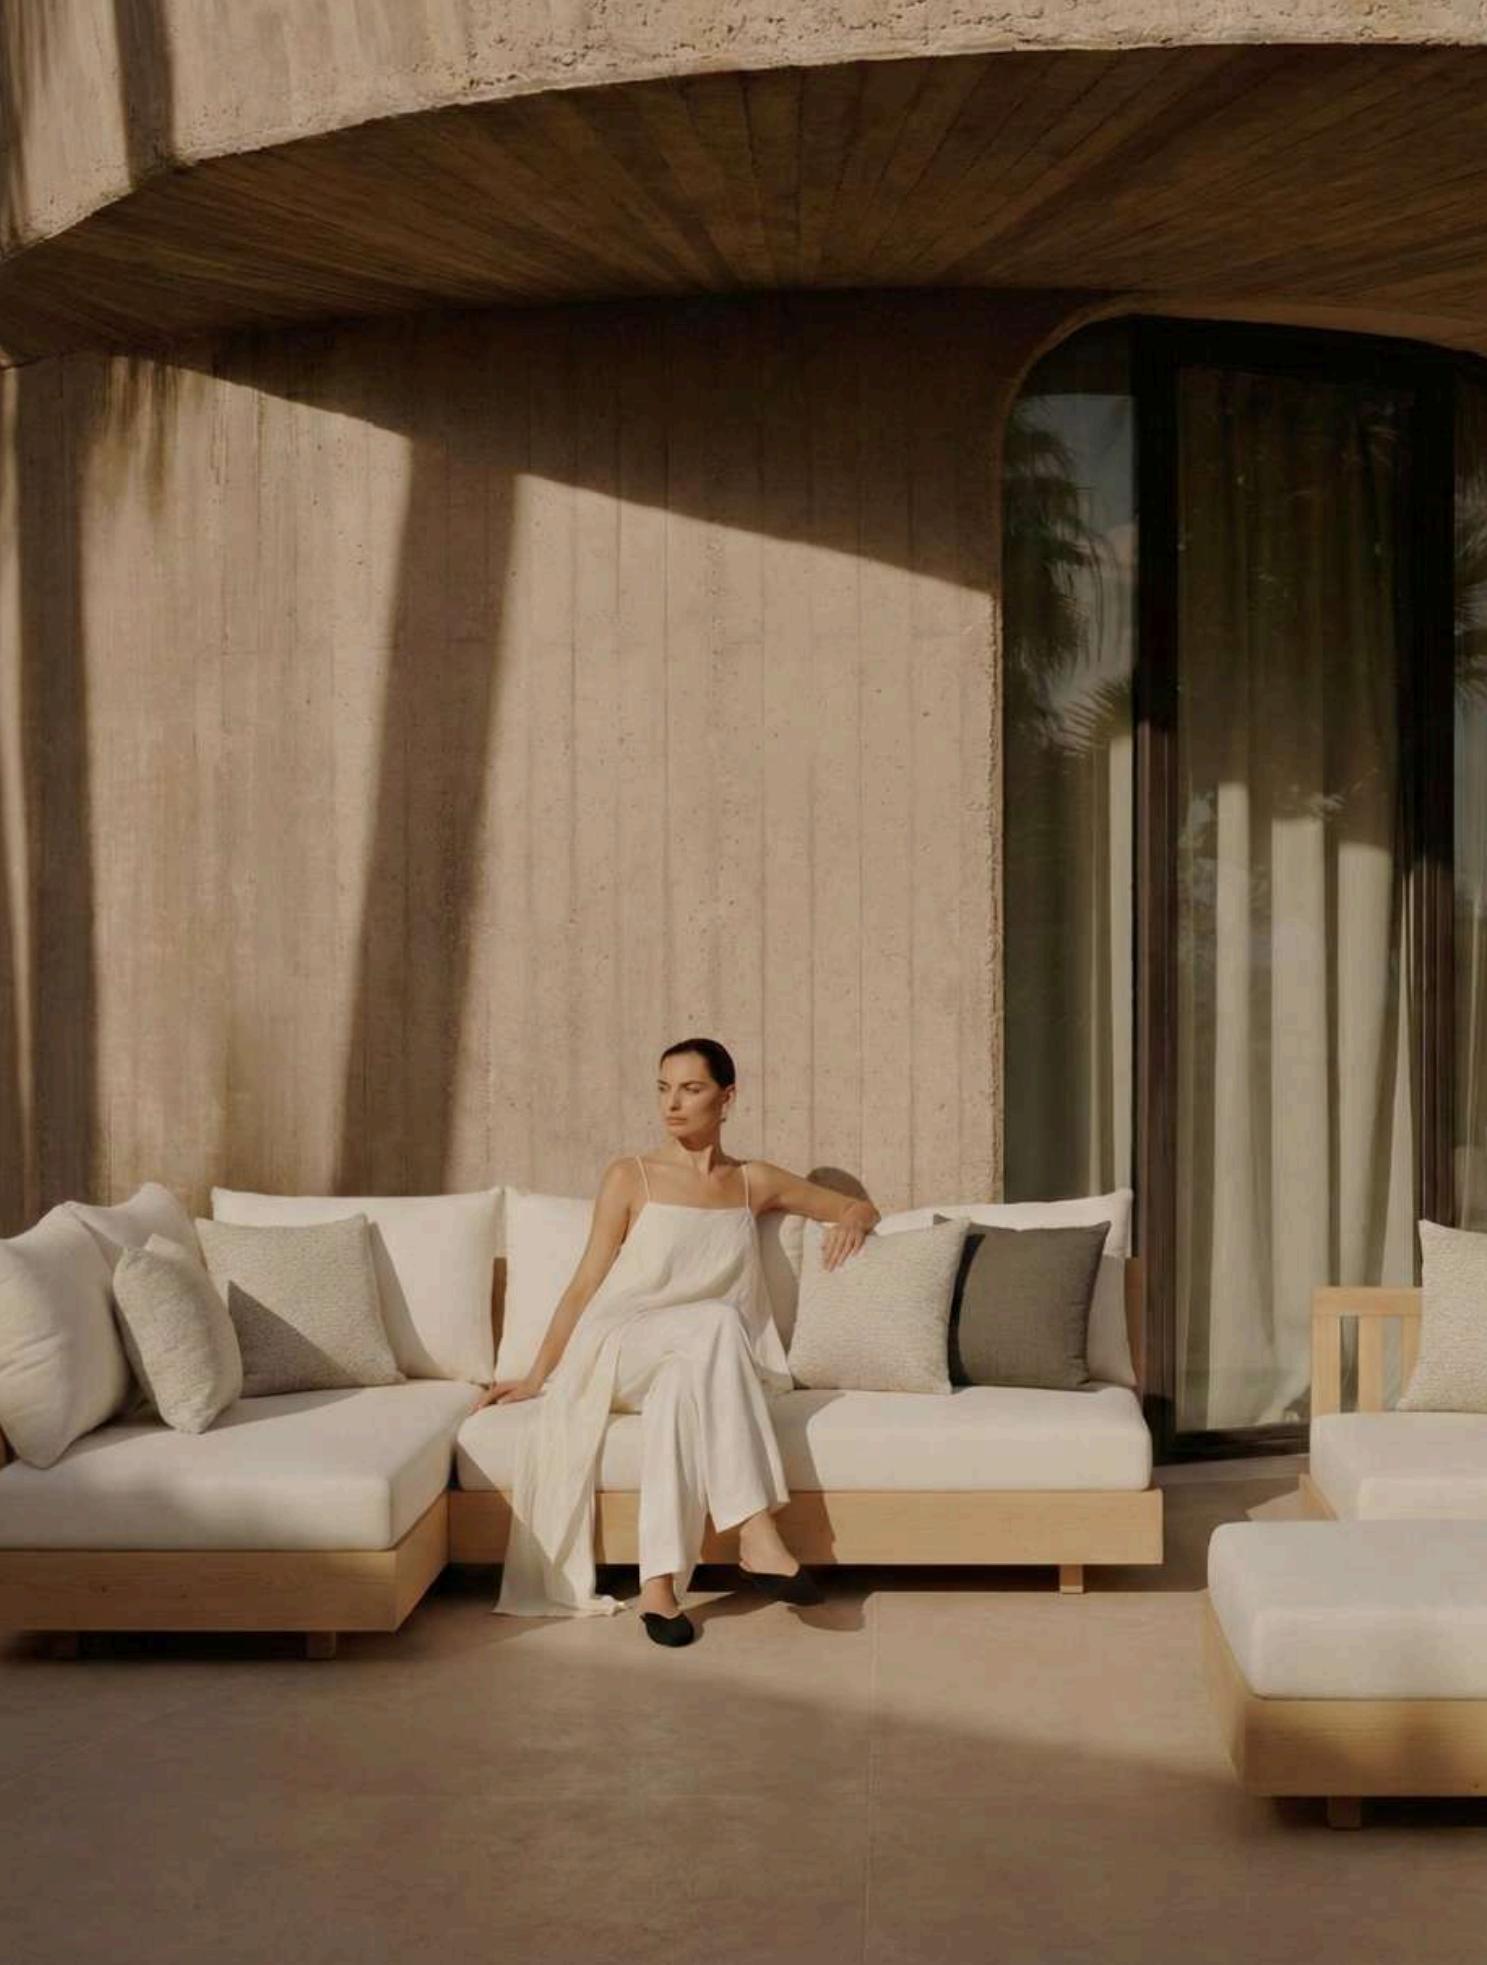

ASTERRA

The Asterra Daybed brings a calm contemporary character to outdoor spaces through its clean lines, warm materials, and understated detailing. Designed as a single-seat daybed, Asterra offers a spacious, comfortable platform for sunbathing, reading, or relaxing outdoors.

Its architectural frame can be crafted in solid teak for a natural, warm aesthetic or powder-coated aluminum for a lighter, modern expression. The raised side panel—available with optional outdoor-grade rattan—adds a refined touch of artisanal texture without overpowering the minimalist silhouette.

A thick mattress-style cushion and supportive bolster complete the piece, while slim metal legs elevate the daybed visually and enhance airflow. Built entirely with outdoor-grade materials, the Asterra Daybed delivers durability and timeless style for villas, resort decks, and private terraces.

AVANO

The Avano Sofa brings a striking architectural presence to outdoor spaces with its clean floating platform silhouette and integrated teak extensions. Designed for modern terraces and luxury resort environments, Avano blends functional minimalism with elevated comfort.

Its structural base, crafted entirely from natural teak wood, is engineered to appear light and hovering while offering exceptional durability in outdoor climates. The extended side platforms act as built-in tables—ideal for placing drinks, towels, or décor—creating a seamless all-in-one lounging experience.

Soft, generous cushions and supportive back pillows introduce a relaxed, resort-like feel, contrasting beautifully with the crisp geometry of the frame. Made with outdoor-grade materials, the Avano Sofa performs reliably in sun, humidity, and coastal conditions while maintaining its refined natural aesthetic.

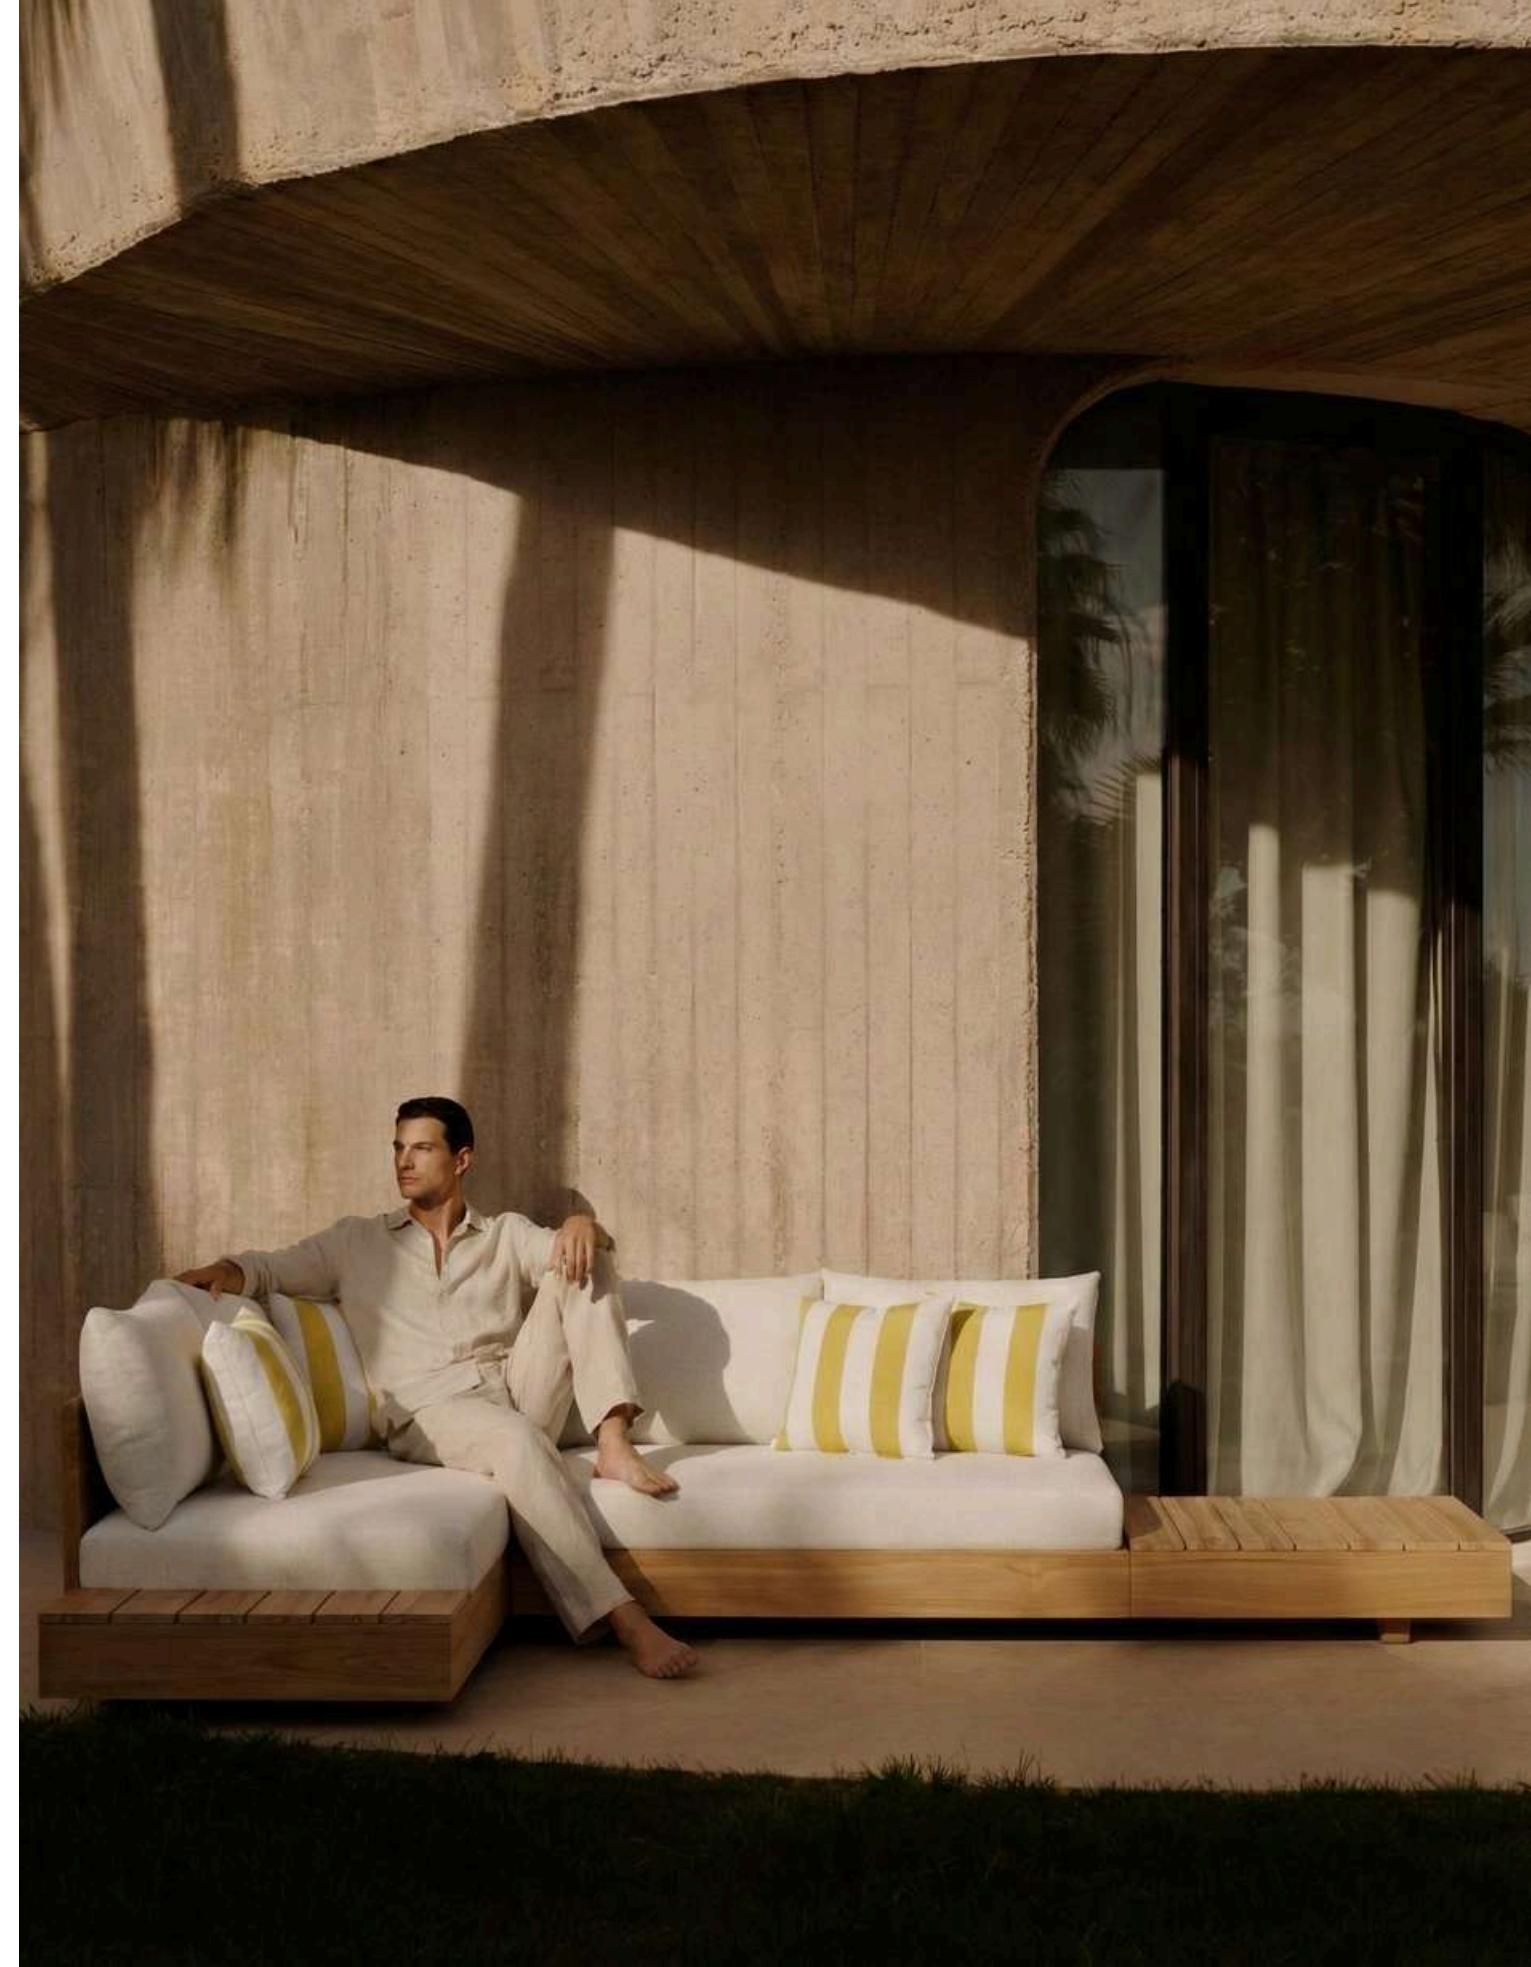

CALDENA

The Caldena Sofa brings a bold architectural character to outdoor lounging, defined by its floating silhouette and extended platform design. Built for modern terraces and luxury resort settings, Caldena blends clean geometry with effortless comfort.

Crafted entirely from natural teak, the structure is engineered for long-lasting outdoor performance while maintaining a warm, organic presence. The integrated side platforms serve as functional built-in tables—perfect for setting down drinks, books, or décor—eliminating the need for additional side furniture.

Generous seat cushions and plush back pillows create a deeply comfortable lounging experience, while the linear frame keeps the aesthetic minimal and contemporary. With outdoor-grade materials designed to withstand sun, rain, and coastal climates, the Caldena Sofa offers both durability and understated elegance.

ARLO

The Arlo Dining Set brings a warm contemporary presence to outdoor living through its natural teak character, refined proportions, and subtle craftsmanship. Designed as an inviting gathering space, Arlo offers a generous dining table paired with ergonomically contoured chairs, creating a harmonious setting for meals, conversations, and leisurely outdoor moments.

Its architectural table features clean, linear slats in solid teak, showcasing the wood's organic grain and enduring strength. The matching chairs combine a sculpted teak frame with handwoven outdoor rope, adding a soft layer of artisanal texture while maintaining a minimalist, modern silhouette.

Plush, weather-resistant cushions provide elevated comfort and support, making the seating ideal for long dinners and relaxed entertaining. The natural finish of the teak allows the set to blend seamlessly into resort decks, garden patios, or villa terraces, aging gracefully into a rich silver patina over time.

HAVANA

The Havana Outdoor Dining Set brings effortless sophistication to open-air gatherings. Featuring a sleek rectangular quartz tabletop paired with sculpted rounded-frame chairs, this set blends contemporary lines with the timeless warmth of natural teak. The durable quartz surface offers a refined, stone-like finish while providing excellent resistance to heat, moisture, stains, and daily outdoor use.

The solid teak structure is expertly crafted for long-lasting outdoor performance, supported by teak's inherent resistance to sun and weather. Soft outdoor cushions elevate comfort, while the minimalist silhouette keeps the setting visually light and inviting. Designed for both residential and resort environments, Havana transforms any terrace, patio, or garden into a relaxed, stylish dining space.

TANA

The Tana Outdoor Sofa embodies relaxed luxury through its sculptural form and low-profile silhouette. Built on a solid teak platform, Tana features generous cushions, rounded bolsters, and modular seating that invites effortless lounging. Its minimalist geometry is softened by plush outdoor-grade upholstery, creating a striking balance between architectural lines and laid-back comfort.

Crafted from premium teak and finished with weather-resistant outdoor fabrics, Tana is designed to withstand sun, rain, and coastal climates while maintaining its refined aesthetic. Ideal for resorts, terraces, pool decks, and contemporary outdoor living spaces, Tana delivers a statement presence that feels both modern and serene.

GAIA

The Gaia Lamps introduce a serene sculptural presence to any outdoor or indoor setting through their vertical teak slats, warm illumination, and organic architectural form. Designed in two complementary sizes, Gaia functions as both a light source and a natural design statement, enhancing spaces with gentle ambience and contemporary character.

Each lamp is crafted entirely from solid teak, arranged in a tapered open-weave structure that allows light to diffuse softly through the wood. The cylindrical inner diffuser creates a warm, atmospheric glow, while the outer teak frame adds depth, height, and a sense of grounded elegance.

The dual-size pairing offers versatility in styling—use them together to create layered lighting compositions along pathways, gardens, pool decks, or villa terraces, or place them individually as sculptural accents within living areas and lounges.
